

He is encouraged to do things for himself (buttering his own toast). Little Nunsthorpe is also helping to really bring out his creative side, I don't have enough fridge space for all the pictures he brings home!

We have noticed that his very limited speech had already started to progress since starting in September.

I feel very confident my daughter is very happy and I know that she's safe.

The teachers are lovely and there are lots of things for my child to do and she really loves going to school.

Her drawings are coming along nicely and she has done really well with her sharing as she has always refused to but she is so much better.

The teachers are very kind, helpful and nice.

100% of
parents would
recommend Little
Nunsthorpe

She has been trying really hard with writing her name.

Speech has been a massive improvement and also confidence. My child sang a song at the front of the whole class. That is a really big step for him.

Speech has come on great since he joined back into Little Nunsthorpe. Learning skills have come on amazing.

Friendly staff. Happy children when they come out always talking about their day. Love being kept informed through pictures and tapestry.

My son has come on leaps and bounds since being back after having so much time off during lockdown.

Maths and English skills have really come on.

His confidence around new people has improved.

I love everything, especially the Tapestry App to see what he's learning and doing at school. Plus he loves his teacher!

I am very happy that my child has new friends and is learning English.

My child is now more confident, plays with other children more now instead of on her own and always chatting while she's playing!

I think it's brilliant! My daughter absolutely loves coming so much that she's sad when it's home time. She adores school and all her teachers!

My child has come on brilliantly!
